Overview

Jetstream® Constructor Kit Gas and Vapour (TH2A2P R SL) With Multi Plug

Jetstream® is a belt-mounted rechargeable respirator with a large capacity disposable filter supplying clean air through a highly flexible reinforced hose to a variety of head tops for different applications.

Comfort

Waist mounted blower unit with fully automatic alarm and integrated battery attached to a wide comfortable waist belt. Complete unit and belt weighs just 765g. (Weight dependent on model variations)

High Performance

180 litres of air per minute are delivered through the Jetstream® filter via a highly flexible hose to the desired head top unit.

Adaptable

Choice of filters suitable for dust or gas/vapour. There is also a wide range of kits available to suit a given task.

Jetstream® Constructor Kit Gas and Vapour (TH2A2P R SL) With Multi Plug
